

Third base umpire

Runners at 1st & 2nd

1. Be alert for pickoff at second or steal at third. (Don't commit too early because throw may be to second on double steal).
2. Call all plays at second and watch interference at second on double play.
3. Call play at third if it is the first play in the infield or on runner from first if it is a base hit by the batter.
4. On fly balls to outfield, take tag at second. Be alert for runner from first attempting to go to second on a throw.
5. Call flys between left and right and any flys to SS or third (if not a potential fair/foul ball).
6. Take tags at BOTH 2nd and 1st if first base ump goes out.
7. Signal "timing play" and infield fly.
8. Watch for check swings if asked by plate ump.
